Red/cyan viewers are recommended for the anaglyphic illustrations in Nicholas Wade's presentation, *Cajal's "Stereoscopic Honeymoon"*

Session 3

Wednesday, June 26

9:00-9:30am Los Angeles (Pacific Daylight Time)

(see the Program for other time zones)

28<sup>th</sup> Annual Meeting of the

## International Society for the History of the Neurosciences (ISHN)

[www.ishn.org](http://www.ishn.org)

**Online/Remote/Virtual via Zoom**

**Tuesday 25 June - Thursday 27 June 2024** (Los Angeles time)

The 2024 annual meeting of ISHN will be held in an Online/Remote/Virtual format via Zoom. There is no registration fee for the conference.

**The Zoom links for the Program and the Business Meeting are distributed to ISHN full and student members through the society's listserv, ISHN-L.** Other interested historians, scientists, medical personnel, students, and independent scholars should request the Zoom link by contacting the conference organizer, ISHN President Russell Johnson, by email at: [rjohnson@library.ucla.edu](mailto:rjohnson@library.ucla.edu)

The Zoom link will be active starting 15 minutes before the scheduled program time. When the presentation starts, please mute your microphone. Questions and answers can be done after each presentation using the "Raise Your Hand" function, but may also be written in Zoom's Chat window during the presentation. Each presentation is scheduled for 30 minutes, which combines presentation time and question/answer/discussion time.

**Attendance is limited; please do not post the Zoom links on listservs, websites, messaging, chat, etc.**

The **ISHN2024 Program and Abstracts** are available through the ISHN website at either of these addresses:
