

Announcement for ISHN2016

Maastricht, The Netherlands

Dear Colleague,

The International Society for the History of the Neurosciences, in collaboration with Maastricht University, is pleased to announce the 21st annual meeting in Maastricht, The Netherlands.

Registration information is coming soon.

The goal of this meeting is to promote research and education in the history of neuroscience, both basic and clinical aspects, bringing together people active and/or interested in the field. Experts from around the world will deliver lectures on the history of the most important neurological disorders including epilepsy, dementia, stroke, and movement disorders. Members and other interested persons are invited to submit abstracts for platform and posters presentations. One of the meetings themes will be the history of imaging of the brain.

LOCATION

Maastricht University Aula

For more information about the hotel and our special room rate, please visit the meeting website.

Please make your reservations early in advance to ensure availability.

Hotels

We have room reservations in:

[Hotel les Charmes ***](#)

[Hotel Botticelli ***](#)

Information on other options (hotels, guesthouses) follows.

AGENDA

A formal call for abstracts will be issued early 2016. Initial proposals for symposia, presentations, or posters are welcome at this time. A full course agenda is available on the meeting website.
