Using Technology to Facilitate Emotion Recognition in Children with Autism Spectrum Disorder

Ofer Golan, Ph.D.
Assistant Professor
Child Clinical Program, Department of Psychology
Bar-Ilan University, Ramat-Gan, Israel
Clinical Director, ASD Unit, Bait Ehad Center, Israel

LEARNING OBJECTIVES:

1. Understand the nature of emotion recognition deficits in ASD.
2. Understand hyper-systemizing in ASD and its effect on the affinity individuals with ASD have for technology.
3. Understand how technology could be used to facilitate emotion recognition in children with ASD, as demonstrated through three intervention effectiveness studies.

Light snacks and beverages will be served.
Giveaways provided at this lecture.

Wednesday, May 6, 2015
11:00 AM – 12:00 PM
