

DOES YOUR CHILD HAVE AUTISM?

FREE SOCIAL COMMUNICATION INTERVENTION

For children with autism

Your child may be eligible to participate if he/she:

- Has an autism diagnosis
- Is between 3 to 5 years old
- Has shown limited language progress in spontaneous expressive language
- Had at least 3 months of early intervention

Participants will receive:

- Free assessments of language and cognitive skills
- Free evidence-based intervention in the community, at home or at UCLA

FOR MORE INFORMATION, PLEASE CALL
(310) 983-1057 or send
