UCLA CAN REACH Training Program
BCBA Workshop

Speaker Bio

Dr. Schwartz is an expert in developing, evaluating and disseminating school and community-based interventions for young children with autism. A main area of focus of her research is on issues around sustainability and acceptability of these interventions. She is also interested in methods of staff training and coaching to ensure that teachers, behavior analysts, and related staff members are well prepared to provide effective, inclusive, educational programming to all students with autism and related disorders.
