

Part 2: Person Centered Thinking and Planning and the CA Competitive Integrated Employment Blueprint

Thursday June 22, 2017

10:00 – 11:30 am

Register Here: <https://ucla.zoom.us/webinar/register/17a76bfcf69c487d66858a512be5123a>

Part 2 will focus on the application of Person Centered Planning (PCP) to the implementation of California's Competitive Integrated Employment (CIE) Blueprint. While not a new approach, today there is renewed interest in the application of PCP to employment. The use of PCP is important to discovering the goals and aspirations of individuals with intellectual and developmental disabilities (IDD) and the preparation and supports they may need for employment.

Speakers from education, rehabilitation, and developmental services will talk about how PCP is currently used in the planning for individuals with IDD and its future application across agencies. You also will hear about how PCP is being used as the basis for Local Partnership Agreements to streamline service delivery and engage community partners to increase opportunities for CIE.

SPEAKERS

Lana Fraser, Project Manager for CIE Blueprint Leadership Team,
Denyse Curtright, Department of Developmental Services
Nina Presmont and Maureen McIntyre, Department of Rehabilitation
Barbara Boyd, California Department of Education

As a result of attending this webinar participants will:

1. Gain knowledge of how PCP was used as a key value in the framing of the CIE Blueprint.
2. Identify the similarities and unique requirements in the use of PCP by each agency.
3. Understand how Local Partnership Agreements will support PCP across agencies and other collaborators.
4. Hear stories of local collaboration within a PCP focus on CIE.

You can read about the CIE Blueprint here: [http://www.chhs.ca.gov/Pages/Competitive-Integrated-Employment-\(CIE\).aspx](http://www.chhs.ca.gov/Pages/Competitive-Integrated-Employment-(CIE).aspx)
