

IEPS, 504S & ACCOMODATIONS FOR STUDENTS WITH TOURETTE SYNDROME

Saturday, August 6th | 9:00am—11:30am PDT
UCLA Semel Institute for Neuroscience & Human Behavior

Join us for a **FREE** Tourette workshop for all people impacted by Tourette and Tic Disorders. This event is designed for individuals, families, educators and other people who are interested in this topic. Children with Tourette Syndrome often face significant challenges in school due to vocal and motor tics, as well as co-occurring conditions such as ADD, ADHD, OCD, dysgraphia, etc. Effective communication with school administrators and your child's "team" is essential to helping your child succeed and benefit from appropriate accommodations such as IEPs and 504 plans.

TAA-CDC Presenter:

Marge Henning, M.S., OTR/L

Marge Henning has over 20 years of experience in pediatric occupational therapy (OT), initially as an OTA and now as an OTR after earning her BS/MS in OT from the University at Buffalo. She conducts frequent in-services regarding the efficacy of OT for individuals with Tourette and related neurological conditions at local, state, regional and national Tourette conferences as well as for the Niagara Frontier District OT Association. Ms. Henning has been involved with transition services and has presented programs for adolescents with mental health challenges. She has served as the chairman of the board of the Tourette Association of Western New York Chapter, and currently serves on the Tourette Association Education Advisory Board.

Funding for this conference was made possible in part by the Centers For Disease Control and Prevention. The views expressed in written conference materials or publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services, nor does the mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government.

PRESENTATION
