
DOES YOUR CHILD HAVE ANXIETY?

Participate in a UCLA Research Study!

Your child may be eligible if he/she:

- is between ages 8-17
- has a clinically diagnosed anxiety disorder
- has no family history of autism spectrum disorder

Participation Involves

- Brain Scan (MRI)
- Physiological Measurements (e.g., heart rate)
- Questionnaires

Your family receives

- \$75
- A picture of your child's brain!
