

Tarjan Center Lecture Series presents:

Transitions for Young Adults with Autism Spectrum Disorder: What We Know and What We Need

Caroline Grantz, Ph.D.

Pediatric Neuropsychologist
Child and Adult Neurodevelopmental Clinic
UCLA Semel Institute for Neuroscience and Human Behavior

LEARNING OBJECTIVES:

1. Participants will identify when transition planning should begin within the educational system, who should be involved, and the domains that should be included.
2. Participants will identify the common pitfalls experienced by individuals with Autism Spectrum Disorder as they transition out of high school.
3. Participants will identify what key things schools, businesses, and organizations can do to increase success for young adults on the Autism Spectrum as they transition into post-secondary education and/or the work force.

MONDAY
