

CREATIVITY

JOIN THE *UCLA* 300 RESEARCH PROJECT

We are looking for healthy volunteers to participate in a unique project that aims to understand the biological bases of creativity, memory, and impulse control. The study team, led by Dr. Robert Bilder of the Semel Institute for Neuroscience & Human Behavior, is supported by the Tennenbaum Family Center for the Biology of Creativity and a grant from the NIH Roadmap Initiative.

Who can participate?

- Healthy men and women
- Between the ages of 18 and 50

What is involved?

- 3 visits lasting 2 to 3 hours each
- Educational and psychological testing
- Blood sample

Participants receive:

- Up to \$150 compensation for completing the study or \$15/hour for each hour completed
- Compensation for parking or public transportation
