

PEERS[®] for Preschoolers

Program for the Education and Enrichment of Relational Skills

SOCIAL SKILLS GROUP

for Young Children with Autism Spectrum Disorder

This research study is testing the benefit of a social skills group (PEERS[®] for Preschoolers) for children diagnosed with Autism Spectrum Disorder between 4 to 6 years of age.

In order to participate, children must:

- Have a previous diagnosis of an Autism Spectrum Disorder
- Speak in phrases of 4 or more words
- Have a parent fluent in English and willing to participate

Eligible participants will receive treatment immediately or after a 16-week waiting period. Participants will complete 120 minutes of assessments to determine acceptance into the study.

If you are interested in participating in this study, contact:

**Dr. Liz Laugeson at 310-26-PEERS (310-267-3377)
or peersclinic@ucla.edu**
