Mission
The Department of Psychiatry/Semel Institute at UCLA provides world-class research, education, service and outreach geared towards serving the mental health needs of California's diverse communities.

Vision (2028)
- Inclusive and well supported recruitment and career development for clinicians, research scientists, educators, faculty, and trainees.
- Strong department-wide communications and collaboration.
- Visionary and service-oriented working relationships across the UCLA campus and with national, state, local agencies and community partners.
- A robust and effective infrastructure that supports our integrated mission.
- Innovative and transformative interdisciplinary research, training, and clinical practice.
- Equitable care and improvements to mental health and wellbeing.

Priority Strategies (2024-2026)

- Create more intentional structures to support the success of the next generation of faculty.
- Facilitate Grant Applications

- Create a sense of community and shared identity (internal/affiliates).
- Improve communication and information sharing

- Augment and enhance administrative infrastructure at the Institute and Center level.
- Facilitate Grant Applications

- Enhance clinical/research collaborations
- Sustain integration of clinical and research enterprises post-Mid Wilshire move

- Improve access to shared statistical support and other shared resources

- Next Generation Success

- Communication, Connection and Partnerships

- Infrastructure Improvements

- Transformative interdisciplinary clinical/research collaborations

- Facilitate Grant Applications

- Improve access to shared statistical support and other shared resources
