Tarjan Center Lecture Series presents:

What Happens Next?
The Transition to Adulthood for Individuals with Fetal Alcohol Spectrum Disorders and Other Developmental Disabilities

Leila Glass, Ph.D.
Neuropsychology Postdoctoral Fellow
Semel Institute for Neuroscience & Human Behavior

LEARNING OBJECTIVES:
1. Understand the neurodevelopmental trajectory of cognitive and behavioral challenges from childhood to young adulthood.
2. Learn how the symptoms associated with fetal alcohol spectrum disorders and other developmental disabilities manifest in the real world.
3. Identify evidence-based strategies and resources available to help support the transition to adulthood.
