

Tarjan Center Lecture Series presents:

A Genetics-First Approach to Autism and Psychosis Spectrum Disorders: The 22q11.2 Deletion Syndrome

Carrie Bearden, Ph.D.

Professor, Departments of Psychiatry and Biobehavioral Sciences and Psychology

*Semel Institute for Neuroscience and Human Behavior
Director, Center for the Assessment and Prevention of Prodromal States
University of California, Los Angeles*

**Monday December 13, 2021
11:30AM – 12:30PM, PST
(via Zoom)**

Learning Objectives:

1. To understand the trajectory of developmental and psychiatric disorders over the lifespan in 22q11.2 deletion syndrome.
2. To identify risk factors for psychosis in individuals with 22q11.2 deletions.
3. To identify key differences between the 22q11.2 deletion and duplication.

All are welcome! Registration is required.
