PEERS® for Preschoolers is a 16-week evidence-based parent-assisted social skills intervention to teach children, between the ages of 4 to 6 years, how to make and keep friends. Originally developed at UCLA by Dr. Elizabeth Laugeson, PEERS® may be appropriate for preschoolers with Autism Spectrum Disorder, ADHD, Anxiety, Depression or other social and behavioral disorders. Children must speak consistently in phrases and sentences of four or more words. Parent participation is required.

Your Child Will Learn How To:

- Listen and follow directions
- Ask and use names
- Greet friends
- Share and give turns
- Ask friends to play
- Join ongoing games
- Keep cool during play
- Be a good sport
- Transition to new play activities
- Ask and give help
- Use good volume control
- Maintain good body boundaries
