

Skills Group for Teens

Does your teen experience challenges with mood and/or stress?

Your teen may be eligible for a UCLA research study
involving a mobile-enhanced cognitive-behavioral group
therapy

Nine *FREE* weekly sessions for teens (13-17) and parents
& three study assessments

Learn skills to help:

- Improve emotion regulation
- Manage stressful thoughts
- Engage in more helpful behaviors

For more information, contact Robin Brown (RobinBrown@mednet.ucla.edu)
Offered by the UCLA CAPPS and CHAMP Programs
Marc Weintraub, Ph.D. & Davd Miklowitz, Ph.D. | Principal Investigators
