

# Does Your Teen Have Problems With Mood?

Is your teen between 12-17 years old?

Is he or she:

- Irritable or grumpy much of the time?
- Sad or bored all the time?
- Angry or have moods that swing up and down?

If so, your teen may be eligible to participate in a study at UCLA.

**Study Involves:**

- Diagnostic evaluation for your child (with re-evaluation at 3- and 6-months)
- Electroencephalography (EEG) recording
- Computer tasks and questionnaires

Eligible youth will receive monetary compensation for research participation.

**For more information call:**

**Alissa Ellis, Ph.D., Principal Investigator**

**310.825.0118**

All calls are confidential. Calling to inquire about the study does not obligate you to participate.
