

END RESULT – by Sep 30, 2016:

- Established the Data Dashboard as the go-to point for the labor trends of Californians with IDD.
- Data Dashboard institutionalized, including a refinement/sustainability plan.
- Able to analyze and share subgroup data.

YEAR 4 OBJECTIVES – by Sep 30, 2015:

- Increased knowledge of the Data Dashboard amongst agencies.
- Increased use of the Data Dashboard measured through counted hits to front page and back pages of Dashboard at launch of Data Dashboard and monthly/quarterly.
- Increased presence of the Data Dashboard online across organizations (i.e. use of Google Analytics, cross-checking of links from other orgs to Data Dashboard).

QUARTERLY MILESTONE(S) – by April 30, 2015:

1. Write 2-4 employment data goals (i.e. percent employed, average earnings) to monitor over time.
2. Add additional data to Dashboard (i.e. life satisfaction, numbers of those who want to work, LECT data, education data).
3. Disseminate Data Dashboard information through print materials, online, and through presentations.

PLANNED ACTIVITIES:

ACTIVITY	PERSON RESPONSIBLE	START DATE	END DATE
Identify categories of pathways to employment for stories of success	Amy	February	March
Select and organize stories of success to add to Dashboard	Data Nerds		April
Update data and add stories of success to Data Dashboard	Wilda & Ruby	February	April
Select appropriate target percentages for two employment data points	Data Nerds	March	April
Finalize Data Dashboard fact sheet using common language definition of CIE	Mark, Katharine, Denyse	February	April
Present information on Data Dashboard	Denyse, Maura, Amy	February	April

PREVIOUS QUARTER SUMMARY (ending January 31, 2015)

STATED MILESTONES:

1. Write 2-4 employment data goals (i.e. percent employed, average earnings) to monitor over time.
2. Add additional data to Dashboard (i.e. life satisfaction, numbers of those who want to work, LECT data, education data).

Completed:

- We have continued to meet and have identified the employment rate as the first target to set.
- We plan to include stories of success on the Data Dashboard. We are currently collecting those and will be organizing them by categories of pathways to employment.

Not Completed:

- We continue to work towards our milestones, but have not yet achieved them fully.

Barriers:

- Time to meet and does research needed to understand what a realistic target percentage for employment rate is.
- Finding the data continues to be a challenge, although much progress is being made towards finding ways to gather additional data and have consensus around the definition of CIE between DOR, DDS, and CDE.
