

Does Your Child Have Autism & Minimal Language?

WE ARE CONDUCTING A STUDY ON PARENT-CHILD INTERACTION THERAPY (PCIT) FOR MINIMALLY VERBAL CHILDREN WITH AUTISM AND THEIR FAMILIES.

YOU CAN PARTICIPATE IN THIS STUDY FROM HOME!

► This study is being led by Nicole McDonald, PhD at UCLA

Your child may be eligible for this study if they have a diagnosis of autism spectrum disorder (ASD) and:

- 3-5 years old
- Does not yet talk or uses minimal language
- English or Spanish is the primary language spoken in your home
- You live anywhere in the United States

If eligible, you will participate in 3 virtual assessments that include:

- Play interactions between you and your child
- Parent Interviews
- Questionnaires
- Along with, 12 weekly intervention sessions over Zoom

Your family will receive:

- Feedback letter on your child's behavior and development from a clinician
- Free intervention & up to \$125 gift cards
